THE STATE UNIVERSITY OF IOWA

A BIBLIOGRAPHY

OF THE

PUBLICATIONS OF THE UNIVERSITY AND ITS MEMBERS

THE UNIVERSITY PRESS
IOWA CITY, IOWA

NOTICE.

THE present work includes, first, a bibliography of the publications of the University of Iowa to date, and, second, a partial bibliography of the publications of the instructors and alumni. Invitations were sent to all the present University instructors, and as far as was possible or practicable to alumni and former instructors, asking for lists of their publications. Notices to the same effect were also printed in the University papers. Some have not responded and others no doubt failed to receive or notice these invitations, so that many books and articles which should appear in these lists are unfortunately not included. It is hoped in future editions of this bibliography to correct these omissions as well as to add all subsequent publications and, that this may be successfully accomplished, the cooperation of all members of the University is earnestly invited.
